

Sandringham & Dersingham Cricket Club

Annual report

After working closely with Sandringham Cricket Club, this year the 2 clubs agreed a formal merger between the 2 clubs which has been completed. This has delivered a much stronger competitive cricket club for the future. The newly merged club operates 3 senior Saturday teams playing in Norfolk Alliance Division 2 and Norfolk Cricket League Division 1 and 4. They operate an Over 40's team in the local league, a ladies team playing multiple friendly matches as there is not currently a league in place and 2 junior sides at U13 and U15.

The club hosts weekly training sessions for juniors and ladies which have been immensely successful, and extremely well supported in terms of number participating and the coaching staff available to assist.

The club has hosted 2 junior cricket camps, where we have 70 children participate over these 2 day events. They have also hosted a Ladies Cricket Festival day where they had 5 local teams compete in a softball event at Dersingham Cricket ground.

The club hosted the charity "856 Foundation" at the Sandringham Flower show game, which was watched by a significant crowd across the day and significant funds raised for the charity.

We are coming to the end of our first full season of operating as a merged club and it has been very successful with participation in junior cricket growing substantially and the introduction of ladies/girls cricket being another major success. The senior sides have done well with the club putting out 3 teams consistently for the whole season.

Behind the scenes there is a strong committee who are keen to further develop and grow the club and the future looks very positive.
